# DDBC320-DALI DALI Driver Controller

## Power saving DALI control solution

The Philips Dynalite DDBC320-DALI features three DALI outputs, allowing control of up to 192 DALI devices. It also features 3 x 20 A feed-through switched circuits for DALI driver mains supply.

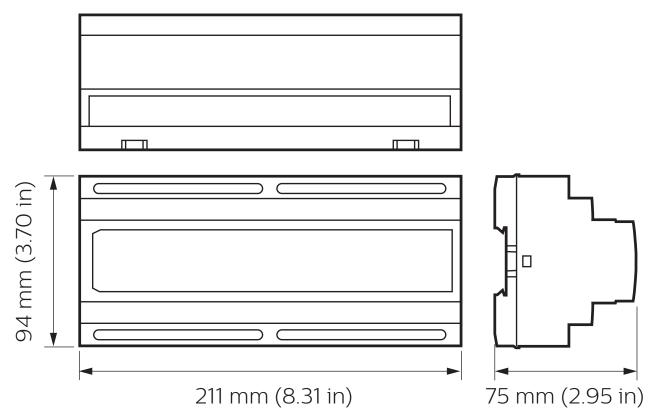

## DDBC320-DALI Power saving DALI control solution

 Compatible with a range of DALI fittings and devices – Including DALI drivers, DALI electronic low

voltage transformers and DALI LED fixtures.

- Built-in energy savings Control signals can be programmed to operate in tandem with three internal switched outputs, which will automatically isolate the power circuit when all associated channels are at 0%. This is a useful feature as DALI drivers still draw significant power when lamps are turned off via a DALI command.
- Fully scalable network solution Direct mapping from DALI to the DyNet network protocol eliminates DALI imposed limits, such as maximum group sizes.
- Flexible mounting solution A DIN-rail mountable device, designed to be installed into the distribution board supplying power to the controlled lighting circuit.
- **Integral DALI bus power supply** Removes the need for provision of a separate external power supply and reduces distribution board wiring complexity.
- Inbuilt diagnostic functionality Features lamp and driver failure reporting, driver run time tracking for each driver and Device Online/Offline status indication.

### Dimensions

Specifications Due to continuous improvements and innovations, specifications may change without notice.

DDBC320-DALI DALI Driver Controller

#### **Electrical**

| Supply Type              | Single-Phase          |
|--------------------------|-----------------------|
| Supply Voltage           | 100-240 VAC           |
| Supply Current           | 0.5 A                 |
| DyNet DC Output Voltage  | 12 VDC                |
| DyNet DC Output Current  | 200 mA                |
| Switched Outputs         | 3 x 20 A feed-through |
| Maximum CH-CH Voltage    | 400 VAC               |
| IEC Overvoltage Category |                       |

#### Control

| Serial Ports            | 1 x RS-485<br>3 x DALI  |
|-------------------------|---|
| Supported Protocols     | DyNet<br>DMX Rx   |
| DMX Rx Channels         | 3   |
| Control Channel Outputs | 3 x DALI  |
| Dry Contact Inputs      | 1 (AUX)   |
| User Input              | 1 x service switch  |
| Indicators              | 1 x diagnostic LED  |
| Diagnostic Functions*   | Lamp failure reporting<br>Driver failure reporting<br>Driver runtime tracking<br>Device online/offline status |

#### **Physical**

| -                                |  |  |
|----------------------------------|--|--|
| Dimensions (H x W x D)           | 94 x 211 x 75 mm (3.70 x 8.31 x 2.95 in)       |  |
| Packed Weight                    | 0.49 kg (1.08 lb)                              |  |
| Construction Po                  | ycarbonate DIN rail enclosure (12 unit)        |  |
| Serial Ports                     | 1 x RJ12<br>1 x 6-way pluggable screw terminal |  |
| Serial Port Conductor Size       | 2.5 mm² (#12 AWG) (max)                        |  |

| Relay/Loop Terminals             | 3 x 2-way screw terminal<br>Loop IN, Loop OUT  |  |
| Relay/Loop Terminal Conductor Si | ze 5 mm <sup>2</sup> (#10 AWG) (max)           |  |
| Environment                      |  |  |
| Operating Temperature            | 0° to 40°C ambient (32° to 104°F)              |  |
| Storage/Transport Temperature    | -25° to 70°C ambient (-13° to 158°F)           |  |
| Relative Humidity                | 0 to 90% non-condensing                        |  |
|                                  |  |  |

#### Compliance

IEC Pollution Degree

Certification

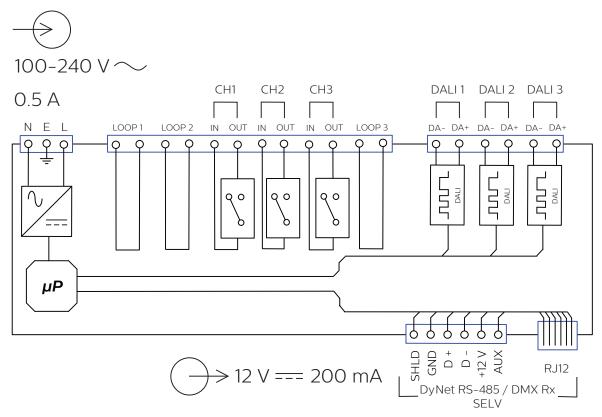

CE, RCM, IEC62386, RoHS

Ш

\* Philips Dynalite System Manager required for analyzing diagnostic data. The availability of some diagnostics is dependent on driver type.

### Electrical

## **Control Channel Ratings**

| Channel | Device                           |
|---------|----------------------------------|
| 15 VDC  |                                  |
| 128 mA  |                                  |
| 250 mA  |                                  |
| 64      | 192                              |
| Basic   |                                  |
|         | 15 VDC<br>128 mA<br>250 mA<br>64 |

## **Output Channel Ratings**

|                    | Maximum Rating per Output |
|--------------------|---------------------------|
| Load Type          | CH1-CH3                   |
| Electronic Ballast | 20 A, 240 VAC             |
| Inrush Current     | 500 A                     |
